UNSERE FARBWELTEN

Für die Gestaltung Ihres Zuhauses spielt der Boden eine wichtige Rolle, da er die gewünschte Atmosphäre unterstreichen und verstärken kann. Dabei ist die Farbstimmung entscheidend – hell und leicht, lebendig und natürlich, verlockend und leidenschaftlich oder ausdrucksvoll und intensiv.
Zur Orientierung und Inspiration haben wir unsere Naturfaserteppiche deshalb in die vier Farbwelten DIVINE, LIVING, TEMPTATION und EXPRESSIV aufgeteilt.
Lassen Sie sich inspirieren…

The floor plays a key role when designing your home, as it can accentuate and enhance the desired ambiance. The colour scheme – light and bright, vivid and natural, alluring and passionate, or expressive and intense – is crucial here.
That's why our natural-fibre carpets are divided into four colour schemes: DIVINE, LIVING, TEMPTATION and EXPRESSIV to help guide you. Be inspired…

Pour la conception de votre intérieur, le sol joue un rôle important, étant donné qu'il peut souligner et renforcer l'atmosphère souhaitée. La concordance des coloris clairs et légers, vivants et naturels, séduisants et passionnés, ou expressifs et intensifs est ici décisive.
Pour l'orientation et l'inspiration, nous avons donc réparti nos tapis en fibre naturelle en quatre mondes de coloris DIVINE, LIVING, TEMPTATION et EXPRESSIV.
Laissez vous inspirer…

WEGWEISER

Läufer zeigen uns unseren Weg. Egal ob auf dem langen Flur bis ans Ende des Hauses oder die Treppe hinauf in den Schlafbereich. Dort wo Läufer eingesetzt werden, findet eine besondere Beanspruchung des Bodens statt. Sie sind daher strapazierfähig und robust - ein Schutz für den Boden und ein Wegweiser durch das ganze Haus.

GUIDES

Runners show us the way. Whether it be down a long corridor to the far end of the house, or up the steps to the bedroom, runners are always found in places of heavy floor use. That's why they're hard-wearing and robust – protecting the floor and guiding the way through the whole house.

POINT DE REPÈRE

Les tapis de passages nous montrent le chemin. Qu'il s'agisse du long couloir qui mène jusqu'à la fin de la maison ou de l'escalier qui monte aux chambres à coucher, partout où les tapis de passages sont utilisés, le sol est particulièrement sollicité. Par conséquent, ils sont résistants et robustes, une protection pour le sol et un point de repère qui vous oriente à travers la maison.
